 - Requirements:
 - Visitor is affiliated at an EU-country or associated country(*)
 - Target countries tagged with their HPC centres on map
 - *i.e.* you can invite, if your group is in one of them
 - Project must make use of HPC resources
 - Provided:
 - Travel costs, accommodation for 3–13 weeks and commuting(**)
 - Resources and support from local HPC-center
 - Multiple visits possible (max 13 weeks or new project)
 - <https://www.hpc-europa.eu/>
- (*) Quota also for other countries (**) Details depend on country: lump sum/by receipt

Optimal for Chemists and Physicists – available for all

- **411** accepted visits by call 9 (2019-9)
- Acceptance ratio **79%**
- **99+%** of visitors "satisfied" or "very satisfied"
- Quotes from feedback:
 - HPC-Europa is a great way to visit other research institutions and build links across Europe as well as getting access to HPC resources.
 - Current system is really good, I don't see any major or even minor issues.
 - Visiting institutions with technical expertise and large computing facilities for free! What's not to love?
 - ... and visits have resulted also in long term positions
