

FINAL EVENT

1.12. AT AALTO UNIVERSITY

GEOSPATIAL CHALLENGE CAMP 2023

Stakeholders and public audience are welcome to join the final event of Geospatial Challenge Camp 2023!

Health and wellbeing solutions

Urban Planning for a Sustainable Tomorrow:

One team is developing a climate risk assessment tool for urban planning, focusing on heat-related risks.

Comfortable Travel for Everyone:

One team is creating a route planning solution specifically designed for travelers with sensitive sensory needs.

Enhancing Healthcare Accessibility:

Two teams are dedicated to improve the location and accessibility of health care services while working with VARHA - the wellbeing services county of Southwest Finland and the City of Helsinki.
